

Servo Feeder Straightener

High Quality Product for
Coil-Feeding in Press-Room

**CRADLE FEEDER
STRAIGHTENER**

FEEDER STRAIGHTENER

SERVO FEEDER STRAIGHTENER

Seeing Global Market Trend of Space Saving. In Year 2004, we have introduced following new concepts for Feeding/Straightening/Uncoiling.

- FEEDER STRAIGHTENER
- CRADLE FEEDER STRAIGHTENER

FEATURES

- Servo feed / straightener models combine a high-performance servo feed with a precision stock straightener.
- They save a whole lot of shop floor space - integrated design eliminates a material loop between feed and straightener.
- Entire straightening and feeding process is easier to set up and control.
- Straightened material stays straight-stock moves directly from straightening rolls into feed rolls.
- Fast material speeds-Up to 30 Mtrs./min
- Brushless AC servo motor drives specially designed gear train linking feed and straightening rolls.
- Compact and simple to install available with adjustable mounting bracket.
- Built in stock entrance roll and adjustable edge guides
- Electronic drive components housed in free-standing control console
- Data entry keypad controls all program functions.
- Simple program instructions with step-by-step prompts.
- Easy-to-read lighted visual display.
- Forward and reverse jog, complete job setup and automatic operating modes.
- Adjustable ramping speed, fault diagnostics.
- Full batch and cumulative counting functions.
- Economical price-quick delivery.
